

## M. D. Wainwright Council Minutes

The council of the municipal district of Wainwright No. 61 met in the council chamber on Monday, April 16, 1945, as set out in motion No. 160 of April 3, 1945, being an adjourned meeting of that date. Councillors Dallyn, Spencer, Taylor, Sutherland, Smale, Golding and Archibald were present. Reeve Sutherland was in the chair.

Meeting called to order.

The reeve asked the council to observe one minute silence as a mark of respect to the late Franklin D. Roosevelt, former president of the United States of America.

The meeting went into the matter of the 1945 estimates of expenditures and receipts, and approved in detail all amounts of estimated expenditures and receipts.

Under the heading Requisitions by Special Levy, the following motions were made:

Moved by Cr. Spencer that the sub-total for education at 74,137.20 at a rate of 16 and 12 mills on the dollar be accepted. Cd.

Moved by Cr. Sutherland that the sub-total for health at \$8,932.60 at a rate of 4 and 2 mills on the dollar be accepted. Cd.

Moved by Cr. Spencer that the sub-total for doctor agreement at \$2,800.00 at a rate of 3 mills on the dollar be accepted. Cd.

Moved by Cr. Smale that the sub-total for provincial government at \$13,990.00 at a rate of 3 mills on the dollar be accepted. Cd.

By-law No. 105 authorizing the 1945 levy for municipal purposes section 288 of the M.D. Act, authorizing the rate of 12 mills on the dollar "as presented."

Moved by Cr. Sutherland that by-law No. 105 pass its first reading. Cd.

Moved by Cr. Dallyn that by-law No. 105 pass its second reading. Cd.

Moved by Cr. Golding that by-law No. 105 pass its third and final reading. Cd.

By-law No. 106 authorizing the 1945 levy for school, hospital, doctor agreement and social service purposes section 289 of the M.D. Act authorizing the following rates was presented:

Wainwright school division No. 32, 16 mills on the dollar;

Provost school division No. 33, 12 mills on the dollar;

Wainwright municipal hospital district No. 17, 4 mills on the dollar;

Vale free hospital area, 2 mills on the dollar;

Doctor agreement, 3 mills on the dollar;

Social service, 3 mills on the dollar.

Moved by Cr. Sutherland that by-law No. 106 pass its first reading. Cd.

Moved by Cr. Spencer that by-law No. 106 pass its second reading. Cd.

Moved by Cr. Taylor that by-law No. 106 pass its third and final reading. Cd.

Moved by Cr. Sutherland that the correspondence from the Chauvin school district No. 2196 with reference to 5 per cent commission W½ 25-43-2-4 be received and charged on 1944 taxes collected noted and that a cheque for \$3.27 be forwarded to the said school district with an accompanying letter. Cd.

Moved by Cr. Smale that the secretary write the Town of Wainwright with reference to the grant of \$10.00 per month made by the municipal district to the local ration board for the past two years asking them to contribute 50 per cent of this grant as the town's population has considerable dealings with the said board. Cd.

Moved by Cr. Taylor that the account of P. T. Smale, meetings and committee work for \$166.80 be passed and paid. Cd.

By-law No. 113 concerning the purchase of \$8,000.00 worth of the 8th Victory Loan bonds presented.

Moved by Cr. Spencer that by-law No. 113 pass its first reading. Cd.

Moved by Cr. Sutherland that by-law No. 113 pass its second reading. Cd.

Moved by Cr. Taylor that by-law No. 113 pass its third and final reading. Cd.

(continued on back page)

## NEWS OF OUR BOYS

According to official word received by Mr. Ed. Sharkey his son, Jim, who went overseas in 1939, was returning to Canada on a hospital ship this week. Jim should arrive home the end of this week.

Archie Bacon was home from Calgary on leave last week-end.

Jimmie Sonoff has been home on leave this week.

Frank Withall came home on leave last Wednesday.

Word has been received that Thomas Goodwin has enlisted in the Canadian active army at Calgary.

"Immediately the war ceases there probably will be a revision of war contracts."—Arthur McNamara.

## Curlers' Social

A very enjoyable time was had in Keifer's hall on Wednesday evening, April 11, when the members of the Irma Curling Club and a few friends met for a social evening as the closing event of the curling season. Approximately 115 were present for whist and crokinole games.

Prize winners at the games were: ladies' whist, Mrs. A. C. Archibald, Mrs. G. Holt and Mrs. Betty Locke; men's whist, Messrs. Robt. Hansen, D. H. Gunn and Pryce Jones; ladies' crokinole, Miss Ada Currie, Miss Kate Younker and Mrs. J. Peterson; mens crokinole, Messrs. Chas. Glover, C. S. Smallwood and R. C. McFarland.

Following the games the ladies served a delicious lunch, after

## Items From Kinsella District

Miss Dorothy Wilkinson spent the week-end at Phillips, the guest of Miss Rena Ann Pisci.

Mr. A. Loades was a visitor to Edmonton last week.

Miss Peggy Allen spent the week end with Mr. and Mrs. Lyn Hunter, of the Rodino district.

Mr. and Mrs. S. Olsenberg of Killiam spent Sunday with Mr. and Mrs. O. Olsenberg of Kinsella.

Mrs. J. McKie and son Malcolm, were the guests of Mr. and Mrs. Lancaster the week-end.

which dancing was enjoyed to the music of the Irma Inkspots.

## At the Churches

**UNITED CHURCH**  
Sunday, April 22  
Paschendale—public worship at 11:15 a.m.  
Roseberry—public worship 3:45 p.m.  
Irma—Sunday school 11 a.m.  
Public worship 7:30 p.m.  
A hearty invitation to all.

**CHRISTIAN AND MISSIONARY ALLIANCE**  
Irma tabernacle—Bible school at 2:15 p.m., gospel service 3:30 p.m.  
Hardisty—Oddfellow's hall, gospel service at 8:30 p.m.  
A hearty welcome to all.

"With the heart man believeth unto righteousness, an with the mouth confession is made unto salvation. For the Scripture saith, Whosoever believeth on Him shall not be ashamed." Romans 10:10 11

## Rev. E. Longmire To New Charge

### ANNUAL CONGREGATIONAL MEETING OF UNITED CHURCH

The annual meeting of the Irma United church congregation was held in the church on Tuesday evening, April 17, with representatives from the appointments of Alberta, Paschendale and Irma present.

Rev. Mr. Longmire was in the chair and opened the meeting with the assistance of the ladies' choir, who sang the anthem "A Welcome to You."

It was with a real sense of regret that the congregation were asked to accept the resignation of Rev. Mr. E. Longmire, the term to end on the last Sunday in June. In eight years of ministry in the Irma charge, Mr. and Mrs. Longmire and family have made a host of friends. Their kind, friendly ways and deep sense of purpose has all gone to make eight very happy years in the work of the Irma church and community. It will be with the very best wishes for them in their future home, that we might say au revoir, not good bye, as there will always be a very warm welcome for these good folks anywhere in Irma and district.

Mr. Longmire has accepted a call to Provost, Alta., where his work will start on July 1.

A committee has been appointed to arrange for a minister to take Mr. Longmire's place.

At the close of the service, the ladies' quartette sang the anthem "Bells of the Morning," by special request.

A full report was given by all branches of the church work, and all showed a marked progress. A delightful lunch climaxed the evening.

# HE HAS *Sacrificed* YOU HAVE *Served*

● You have reason for just pride if you have done all you could do, on the home front, to support the gallant effort of our men in active service.

If you have denied yourself pleasures and comforts to buy Victory Bonds . . . you, too, have played a part in helping your country's war effort.

You have worked and saved and lent your savings to your country. Without this help from you . . . and from millions of her citizens, your country could not have maintained the prominent place she now occupies among the freedom-loving nations.

Canada has the use of your savings to help to win victory. (You will have this money to use for your own needs later.)

Perhaps you wish you could have done more. Well, you will be asked to do more. Men who have come back will tell you that there is lots to do yet. Canadians are on active service, on the fighting fronts. More money is needed to support their effort.

You are asked to keep on working and saving and you will be asked to put more savings into Victory Bonds. They are the best investment any Canadian can make; an investment that every Canadian should make.

## Get ready to buy VICTORY BONDS

8th Victory Loan Opens April 23rd  
NATIONAL WAR FINANCE COMMITTEE

## GREAT PRESIDENT DEAD

### FRANKLIN D. ROOSEVELT

Death came Thursday afternoon, April 12, at Warm Springs, Ga., to President Franklin Delano Roosevelt, one of the Big Three, and perhaps the greatest U.S. president since Lincoln. His death was sudden and resulted from a cerebral hemorrhage. New president is Harry S. Truman, who took the oath of office less than three hours after Mr. Roosevelt died. He had been vice-pres.

Citizens of Irma joined in the expressions of sorrow and regret at the president's passing when the news came over the radio.

### CARD OF THANKS

The Irma Ladies' Curling Club wish to thank all those who so generously contributed to making their social evening such a success. Also those who so willingly helped during the bonspiel.

### AUCTIONEER

DICK ROHRER, Irma

Licensed and bonded for your protection. No. 154-45-48.

Livestock and General Farm Sales

Good Horses a Specialty

Satisfaction Guaranteed

I know its value and how to get it.

## History In The Making

WE ARE LIVING in troubled and difficult times, but this is also a momentous period in history and it is our privilege to witness the shaping of events of tremendous importance. Many such events have occurred during the past few years, and there will be many more before the final ending of the present world crisis. In our time we have seen nation after nation overrun and life and property destroyed on a scale never before dreamed of. We have seen the development of air warfare, and the introduction of rocket bombs and jet-propelled planes. We have likewise witnessed the beginning of tank warfare on a gigantic scale and our radios have brought to us the thunder of the powerful explosives used in modern combat. Through the press, radio and motion pictures we have become familiar with the faces and voices of most of the notable personages of the day, and by means of these mediums we have been able on many occasions, to see history in the making.

### Liken Hitler To Napoleon

Hitler's attempt to overrun Europe has been compared to Napoleon's conquest of that same continent over a hundred years earlier. Napoleon changed the map of Europe many times, and much history was made during his lifetime. Some observers, however, have drawn attention to the fact that while much has been written of political and military events during the Napoleonic era, the invention of the steam engine, which took place during the same period in history, has had a more profound influence on the course of history than Napoleon's many sensational exploits. It has been suggested that a similar situation exists today, and that we may now be on the verge of as great a change as the industrial revolution of the nineteenth century. But at this time the change may be connected with science and technology, and it may have wide effects on both our economic and social relations in the future.

### Many Changes Now Imminent

One reason for believing that many changes are imminent is based on the great advances which have been made in the production of synthetic materials. Some of these products now surpass the natural substances for which they substitute, for in the factory a uniformity can be achieved which is often impossible in nature. One example of this is in the production of synthetic rubber, which is believed likely to prove superior to that made from the rubber plant. In addition, synthetic rubber may be produced close to great industrial centres, eliminating the cost of transporting natural rubber long distances. The effect of developments such as these on the economic and social structure of countries who have in the past produced large quantities of raw materials will be very great, and vast changes will be necessary to meet this situation. In the field of technology, we are reminded that in the interest of speeding up war production the Allied Nations have pooled all their technical knowledge, and that many nations who formerly imported great quantities of manufactured goods, will now be equipped to supply their own needs. Keeping these facts in mind, we may question whether all the history which is being made today is originating on the battlefields and around conference tables.

## HOW YOU CAN GET QUICK RELIEF FROM SORE, PAINFUL PILES

Most people seem to think the only way to get relief from their sore, painful piles is by local treatment. Local treatment may give temporary relief from the itching, but you can easily see why such treatment will not correct the cause of your piles. No lasting freedom from pile misery can be had unless the cause of the trouble is cured. Piles are due to internal causes so the only way to get lasting relief is to treat them internally with a medicine like Hem-Roid. Hem-Roid is a formula which has been used for over 40 years by thousands of pile sufferers. It is a small, highly concentrated tablet, easy and pleasant to use. This cleverly compounded tablet formula directs its medicinal action to the relief of the congestion that is the real cause of your piles. Hem-Roid promotes free, easy and comfortable bowel movements, quickly relieves itching, irritation and pruritus and stimulates better blood circulation in the lower bowel. With good blood circulation in the rectum you can get quick relief from your piles. Try it today.

Posed by a Professional Model

A reliable firm doing business in Canada for a good many years. Hem-Roid must help your pile condition quickly, easily and pleasantly or this simple, easy test bowl. With good blood circulation in the rectum you can get quick relief from your piles. Try it today.

### Rather Crowded

Family Of Eleven Occupied Drawing Room C.N.R. Train The old woman who lived in a shoe had nothing on the mother and father who boarded a Canadian National Railways train at Prince Rupert for a trip to Alberta. When the conductor made his rounds to collect the tickets he nearly fainted. Eleven members of the family, parents and nine children, occupied the drawing room the father had previously reserved. No report was received as to how they bedded down at night.

ACHE? PAT ON DOAN'S LINIMENT

### Wartime Clothing

People In Britain Have Learned To Make Unusual Do

The story of British opportunism never contained a more astonishing chapter of "recovered situations" than the one which British women have written in wartime clothing. Many a proud husband has gone off to work, proud still, in a fine shirt made of the kitchen curtains. Most husbands wear Joseph's coats of many colors, the heroic last stand of five other shirts.

There was a wedding the other day at which the bride's family and all the wedding guests in the know beamed on the bride with more than customary interest, for she was radiantly beautiful in the family tablecloth—the best damask tablecloth unadorned and made over—Providence Journal.

First "greenhorns" were persons in France who had to wear green horn-shaped hats to signify that they were bankrupt.

## Price Control And Rationing Information

Q—Has the butter ration allowance been increased?  
A—On April 1st each butter ration coupon will be good for seven ounces of butter. Butter coupon 104, originally scheduled for May 3, will be advanced to April 26, so that a butter coupon will become valid each Thursday during April. None of the butter coupons in ration book five have expired.

Q—Must discharge papers be presented before new ration book can be issued to a former member of the armed forces?  
A—Discharge papers or letter from the Commanding Officer certifying to the discharge or a release certificate from the R.C.A.F. must be presented to Local Ration Board before a ration book can be issued.

Q—I am renting three rooms from the owner of the house. Can she give me notice to get out so her daughter can occupy these rooms? Also can the landlord give notice or must she have a letter from the Wartime Prices and Trade Board?  
A—The landlord has the right to give you notice if she wishes to rent the rooms to her mother, father, son, daughter or daughter-in-law. She must, however, give you six clear months' notice in the proper form provided by the Rentals Administration of the Board.

Q—How long may I reside in a hotel before surrendering my ration book?  
A—Fourteen consecutive days.

Please send your questions or your request for the pamphlet "Consumers' News" or the Blue Book in which you keep a record of your ceiling prices, mentioning the name of this paper to the nearest Wartime Prices and Trade Board office in your province.

### French Reconstruction

Will Rebuild Town On Ideas From America

Reconstruction of the devastated regions of France will be based on American experiments with community housing, according to Pierre Barde, general secretary of the French City Planning Society (Société Française d'Urbanisme). The new homes and buildings will be built to last, Barde claimed; they will not be temporary structures.

"For the last quarter of a century the United States has practically abandoned the skyscraper and turned to buildings of four floors," Barde stated. "The technique across the Atlantic is that of the neighborhood unit, with accommodation for around 5,000 persons."

"We plan to rebuild our destroyed towns on the neighborhood unit system," said Barde, adding the claims that France will be the first country in Europe to carry out such a project in a large scale.

Barde stated that there would be no question of these homes and shopping centres being built as temporary housing for homeless Frenchmen. "We will build immediately, trying to avoid inessential, expensive and jerry-built houses, and we will build them to last. Barde said that local construction technique and materials would be used, and added that regional architectural styles would be taken into account when the buildings were designed.

### A Good Suggestion

To Make Area Around St. Paul's Cathedral A Remembrance Garden

An Empire war memorial in the bombed area around St. Paul's Cathedral, which might become one of the wonders of the world, has been suggested by Lord Queensborough, president of the Royal Society of St. George.

"There could be a temple of remembrance where the names of the dead could be recorded, and about it might spread a garden of remembrance which would be an oasis of peace and quietude for all time to come," he said.

### ROCKET ON EXHIBITION

A scale model of a German V-2 rocket, shaped like a pencil and as long as a telephone pole, has been placed on exhibition in London. The model is 11 feet long and is paying sixpence (about 10 cents) a look to see what kind of weapon Hitler has been hurling at them. Proceeds go to a fund for relief of families of R.A.F. fliers killed in the war.

The British house of commons once adjourned to see 11-year-old William Betty, boy prodigy, play in Hamlet. Betty could master the heaviest Shakespearean parts with ease.

A bee usually gathers pollen from only one kind of flower in a single day.

### The New Memorials

Should Be Of More Useful Type Than Last Ones

The question of memorials for those who died in this war was raised in the House of Lords recently, and the general view was that they should take a more utilitarian form than the memorials of the last war, probably parks and open spaces and buildings for community use.

Many of the last war memorials were hastily conceived and ill-designed, and unworthy of the sacrifices they were intended to commemorate. In small places it was possible to carve the name of every man on the memorial, and in some others memorial books were printed or inscribed. It is doubtful that the stone memorials bearing the names of the dead will be adopted to the extent that they were after the last war, but the men who have died should be recorded on a plaque, roll of honor, or in a book.

The subject will soon become an issue in every community. There is always a need for a local improvement of some kind, and we are inclined to think that the utilitarian, or useful type of memorial will find most favor. Men who died in order that this shall be a free and better world would feel that they had also done something for their home town and friends if their sacrifices were remembered by adding something to the community which made it a better place to live in than when they marched away to die for it—St. Thomas Times-Journal.

### Scared Of Helicopter

Two Marooned Fishermen Terrified By Weird Rescue Machine

Two Olean, N.Y., fishermen, marooned on a mushy and sinking ice floe in Lake Erie, heard a strange noise in the sky and looked up at the most terrifying sight they ever saw.

A whirling contraption that looked like an upset windmill was setting down on them from the sky. They saw a figure inside it and thought it was the angel of doom.

The machine came to rest in mid-air a few inches from their heads and the voice inside called on one of the two huddling men to climb aboard. The two fishermen, Arthur C. Johnson, 47, and Walter Gillison, 38, edged away in fright.

"You'd have thought they were seeing something straight out of their kids' comic books," Floyd Carlson, Bell Aircraft Corp. test pilot, who rescued them in an experimental helicopter plane, said last night. "One of the fishermen told him, 'Why, I never expected to see one of these things, let alone ride in one.'"

### New Solar Houses

Are Pleasant To Live In And Easy On Fuel

In some places on this continent architects deliberately plan houses to "trap the sun's rays." They call them "solar houses." They can be as modern as you like, with whole walls of glass. Or they can be traditional houses, simply with extra, regulation windows in the south wall. They are becoming popular because they are pleasant places to live; and for a good, practical reason, too; because they save on heating bills. Actual experience shows that on sunny days the heating plant can stay off for some hours in a house that borrows heat from the sun. The saving in fuel bills is a quarter to a third over a regulation house of the same size.

You need to think about a number of things when you plan a solar house. First, of course, windows have to be banked to the south. You can also have plenty of windows east and west. But to the north, where there's no sun, it is wise to have few windows as possible. All this means that the rooms of your house need to be arranged so that the living quarters turn to the south, and less important areas on the north—Brandon Sun.

### A NARROW ESCAPE

An 18-months-old secret of the war in the Mediterranean has been made known in Rome that Britain's 30,000-ton battleship Warspite received a direct hit from a German bomb and sank off Italy's Salerno beaches in September, 1943.

First, of course, windows have to be banked to the south. You can also have plenty of windows east and west. But to the north, where there's no sun, it is wise to have few windows as possible. All this means that the rooms of your house need to be arranged so that the living quarters turn to the south, and less important areas on the north—Brandon Sun.

Here's a SENSIBLE way to relieve MONTHLY FEMALE PAIN

Lydia E. Pinkham's Vegetable Compound not only helps relieve the pain of monthly disturbances, but also helps relieve nervous, tired, high-strung feelings—when due to functional monthly disturbances. It's one of the most effective medicines for this purpose. Pinkham's Compound helps natural follow label directions. Try it!

Lydia E. Pinkham's VEGETABLE COMPOUND

### HERE'S MY FEED PROBLEM . . .

Can proper feeding prevent worms and what are some of the symptoms of worms?

### HERE'S THE ANSWER . . .

Worms cause poisons leading to blindness, loss of weight, lameness and general run down condition. "Miracle" Growing Mash will help to build resistance to disease because it contains scientifically balanced food values which give the hen the elements necessary to build strong, healthy bodies.

### ASK FOR "MIRACLE" FEEDS!

### Seeds For Russia

Under Lend-Lease 20,000 Tons Have Already Been Delivered

The Foreign Commerce Weekly, official organ of the Department of Commerce, reports that 20,000 tons of seeds, a quota set for the first half of this year under Lend-Lease, have been delivered to Russia. These are mostly seeds of vegetable and field crops that will permit increased planting in the liberated Ukraine.

Some indication of what the shipping of seeds means in conservation of space for other munitions than food appears in the publication. It says that the 20,000 tons of seeds could be carried by two cargo ships on one trip but that it would take thousands of ships to carry the food which these seeds can produce.

To make a point it says that one pound of tomato seeds may yield 160,000 pounds of tomatoes; a pound of carrot seed, 20,000 pounds of carrots, and a pound of cabbage seed, 200,000 pounds of cabbage. — New York Sun.

### SMILE AWHILE

"I have a note from your schoolmaster in which he tells me that you are late in a class of thirty boys, Tommy."  
"I'm sorry, Dad, but it might have been worse."  
"How could it have been worse?"  
"It might have been a larger class."

Mr. Thompson—"I'm convinced that China needs a firm hand."  
Mrs. Thompson—"I've told the new maid that, but it's no use."

Customer—"Why don't you advertise?"  
Brushville Storekeeper—"No, sir! I tried it once and it pretty near ruined me!"

Customer—"How was that?"  
Storekeeper—"People came in here and bought denim near everything I had."

"Are there any good substitutes for butter?" asked the newly married lady.

"Well, yes," replied the nearest market man, "there are three: 'peanut butter, margarine, and going to mother's house for dinner.'"

During a severe frost a young woman entered a chemist's shop and asked for a remedy for chilblains.

The assistant recommended a certain preparation, which he said was warranted to keep away chaps.

"What did it cost?" asked the young man.  
"It was not the kind of thing she wanted."

Teacher (to the class): "Now this is a very difficult problem. Watch the board while I run through it."

Sweet Young Thing—If the Dean doesn't take back what she said this morning, I'm going to leave college.

Another Ditto—What did she say?  
Sweet Young Thing—She told me to leave college.

Ann—I got big-hearted this morning and gave him a bum \$5. Nan—What did your husband say about your generosity?

Ann—Thanks.  
Boylis Voice (over the telephone)—Is this the Society for the Prevention of Cruelty to Animals?

S.P.C.A. Secretary—Yes.  
Boylis Voice—Well, there's a book agent sitting in a tree in our front yard, and he's got Tower so excited he can't eat.

### ESCAPED BOMB

A crude bomb exploded on the doorstep of the British Legation in Stockholm last January, it was disclosed recently, after an unsuccessful two-month hunt for the culprit. Windows were shattered, but none of the legation staff was injured.

Java has more thunderstorms than any other country in the world.

### Has Its Points

Many People Overlook The Health-Bestowing Qualities Of An Apple

The proverb about an apple a day keeping the doctor away has more truth in it than some of us may think.

Because apples are considered a more or less common food, their actual health-bestowing qualities are often underestimated. The wisdom of including apples in one's daily diet can hardly be questioned after reading what a bulletin on agriculture has to say about them. It stresses the following points:

"They are the source of natural fruit sugar and thus provide energy. Eaten raw between meals they satisfy the craving for sweets."

"The water contained in apples is in its purest form."  
"They tend to promote proper elimination, as skin and the framework provide bulk and the organic salts are diuretic."

"Apples counteract a tendency to acidosis as they leave an alkaline ash. A well masticated apple thus aids digestion."

"Apples are a source of vitamins necessary to the body."  
"One large apple gives 100 calories."—Kitchener Record.

### Look out for Trouble from Sluggish KIDNEYS

Try the Original "Dutch Drops"

It is poisonous waste that your kidneys are filtering out of your blood that may cause backache, dizzy spells, leg aches, and general weakness, and smarting and burning. For relief use the remedy that has helped thousands for many years—GOLD MEDAL Haartem Oil Capsules.

This effective diuretic and kidney stimulant is the original and genuine Dutch Drops in carefully measured amounts in tasteless capsules. It is one of the most favorably known remedies for relieving congested kidneys and irritative bladder. It works effectively, helping the delicate filters of your kidneys to purify the blood. Be sure you get the original and genuine packed in Canada. Insist on getting GOLD MEDAL Haartem Oil Capsules. See at your druggist.

### International Force

Rumor In London Of Plan To Track Nazi War Criminals

Formation of an international detective force to track down Nazi war criminals in any country in the world in which they might take refuge was long widely reported in political circles in London.

The body will operate as a sort of Allied Nations' Scotland Yard, working with dossiers supplied by the war crimes commission and other evidence obtained in Germany. Headquarters will be in London it was said.

"Pickers men from several countries with wide experience in international police work will engage in the biggest manhunt in history, probably before the end of the war in Europe."

A single stalk of corn will lift approximately 440 pounds of water from the ground, and expel it through its leaves, in one short growing season.

### Diesel Crawler Tractors

RD7 Caterpillar with 8 yard Le Tourneau scraper; RD8 with 12 yard scraper; TD18 International with bulldozer (scraper optional); TD40 with bulldozer; RD40 International (47.5 HP); RD4 Caterpillar; RD4 with Anthony Highlift Bucket and interchangeable bulldozer blade. . . . Light plants, 1500 watt, 32 or 115 volts. Send for the . . . Diesel and Gasoline Engines, 40 to 150 HP. Other equipment available. Wire, write or phone S. H. Leventhal & Co., Machinery Agents, Winnipeg.

## OUR COMPLETE SHORT STORY—

### Women Drivers!

By BERNARD KELLY

McClure Newspaper Syndicate

Della Walker looked up cautiously at her husband as they waited to cross the busy street. Was this the time to ask about buying that dashing ensemble at Tremont's? Bill looked happy and peaceful. Yes, it was the moment.

"Bill," she began as they stepped off the curb together, "there's the sweetest—"

Bill grasped her wrist and snatched her back toward the curb, almost causing her to lose her balance. There was a blatant horn and the squeal of tires, and a powerful roadster whipped past. A girl was driving.

"Wow!" Bill roared. "Women drivers! Did you see that? If a few pedestrians happen to be in the way, does she care? No! Let 'em jump. Women drivers!"

"You ain't a wolfing, brother," another man said. "There ought to be a law against women driving. My wife—"

"You put a woman back of a steering wheel?" Della decided that it was not the proper time to ask about that ensemble. Modestly she crossed the street with Bill and they entered their tiny little coupe. "I'll drive," Della said.

"Honey, you know I'm always nervous when—"

"Oh, whole-bubber! I can drive as well as you can, and you know it! Men make me sick, the way they take on about women drivers. The things I've seen men do!" Bill leaned back resignedly and Della drove away.

"Hey, look out!" Bill said suddenly. "That truck!"

"I see it. Keep your shirt on."

"Hey, that red light!"

"It's turning green. See? I saw the orange on the other street."

"Look out, you're going pretty fast."

"Twenty. If I go any slower they'll pick us up for blocking traffic."

Bill was thoroughly out of sorts. The pinnacle of his rage was reached when the driver of the car ahead signaled for a half block that she was going to make a left turn, and then went straight ahead. "You see

that?" he said as they drew up at her "cozy little home." "You see that? Held her hand out for a whole block, then went straight ahead! Of all the—"

"Maybe she changed her mind," Della said.

"Changed her mind! Sure she changed her mind. Women drivers!"

He picked up the evening paper and read a story through carefully. Then he smiled.

"What is it?" Della asked.

"Some scientists over at the university have invented a new machine," Bill said. "It's for testing drivers to see how good they are—how quickly they react to problems."

"How can they do that?" Della asked incredulously.

"They make a motion picture of a car moving down a city street, with all kinds of things happening—trucks crossing and kids playing ball, and so on. Well, they place the person who's going to be tested in a seat with all the levers that belong in an automobile, and flash this picture on a screen in front of him. He's supposed to put the brakes on when he thinks they should go on, or honk his horn, or turn out, and everything he does is registered on a graph. It's easy enough to see how quickly and correctly he reacts to danger."

"Sounds complicated," Della said. "It's just what some man would work out."

"Right," Bill said, "and they'll test anybody free of charge. You and I will take that test tomorrow. Once and for all I'll show you that men are good drivers and women aren't. That'll put an end to all this arguing."

About ten o'clock the following morning Della and Bill were emerging from the laboratory. Bill's face was as dark as a thunder cloud.

"You don't need to snap my head off, do you?" Della demanded, "just because the test showed I'm a fifty per cent better driver than you? Or all the babies?"

"It was framed!" Bill stormed. "Why, anybody knows men are better drivers! Everybody knows it!"

"Except the machine," Della said. "It doesn't."

"All right, all right, you drive, then," Bill snapped, climbing into the coupe. As they drove off Della sighed. That ensemble had never seemed farther away.

"Either the light," Della said, sweeping past the policeman and across the intersection. "It was almost ready to turn, anyhow."

There was a walling siren, and the officer waved Della to the curb. "That's the idea!" he demanded. "I'm going to give you a ticket, young lady."

"Good driver!" Bill crowed, his pleasant humor suddenly restored. "Runs a red light! Congratulations, officer. There ought to be a law about women drivers!" He accepted the ticket and tucked it into his pocket. He whistled a jaunty tune. He smiled and waved at a passer-by.

Della, driving on, suppressed a quick smile. "Honey," she said, "there's the sweetest little outfit down at Tremont's—"

## Daring Tactics

Carried Out By Spitfire Fighters Against German V-Bombs

The idea of matching Spitfire fighter-bombers against German V-bombs was conceived in a bleak Nissen hut by an R.A.F. fighter pilot who had long studied intelligence reports on the enemy's "vengeance" weapons.

The pilot, who remains unidentified, was convinced that V-2 was a target against which the fundamentals of dive-bombing technique could be applied. The objective was too small for the heavy bombers, but ideal for the power-diving, single-engine fighter-bomber.

A handful of Spitfire squadrons went into intensive training. Every characteristic of the weapon was studied and bombing ranges in the vicinity of the base was reserved exclusively for practice attacks of this new "priority one" offensive. To ensure the most effective type of bomb, a variety was tested.

Three weeks later, on Nov. 21 last year, the Air Ministry announced for the first time that a V-2 target had been attacked successfully by Spitfires. Direct hits were made on a storage, erection and launching installation concealed in a Netherlands wood and plots saw "strikes" on a rocket standing erect in its firing position.

Attacks against this difficult type of target—the launching site may be a small space in the streets, in a wood or on the open road—are carried out by a power-diver from many thousands of feet and the bomb is released from 2,000 to 3,000 feet. Then the pilot pulls out of their dives and follow up with a concentrated low-level strafing which "sterilizes" the target area and its immediate environment.

Thus the entire organization behind the launching of the V-bombs is dislocated. Spitfire attacks undoubtedly have prevented the enemy from developing his launching to the planned scale.

## GARDEN NOTES

Where the Grounds Slope

Where grounds slope sharply, say several feet in a few yards, experts advise making a distinct separation between one level and the other rather than trying to connect with added terraces. The latter, no matter how carefully handled, are liable to wash away. Most landscape gardeners advise grading lawn or grounds gently to a stone wall, rock garden or strip of dense shrubbery or tree growth. This will take up from two to five foot drop, then the lawn is continued again at another level. If the end is reached or another drop must be accommodated, the two levels are usually connected by stone or other steps.

### Rotation

Wherever possible gardeners rotate their vegetables from year to year. In other words, the same part of the plot will not be used for exactly the same vegetable each season. They have sound reasons for doing this, the most important of which are better insurance against disease and depletion of soil fertility.

If, for instance, potatoes were grown on exactly the same ground year after year, then there will be danger of all sorts of potato diseases living over the winter and getting worse each season. The particular plant food used by potatoes, too, will soon become exhausted. If moved around even a few feet there is more protection. This also gives such soil builders as the leguminous vegetables (peas, beans, etc.) a chance to add fertility and spread it over the whole garden. Rotation also assures more thorough cultivation, for cultivation varies in depth and intensity with almost each plant. With corn, tomatoes, potatoes, etc., it is possible to keep ground cultivated deeply and continuously throughout almost the whole season, whereas with some of the smaller and closer growing things this would be impossible.

This moving around allows one part of the garden to be cleared up early and some enriching cover crop like late oats, buckwheat or rye can be planted. These are plowed or dug in next spring or late this fall. Not only will this help to rid the soil of weeds, but digging in the cover crops will add humus and plant food for next year's vegetables.

## Trillion Dollar War

Before Hostilities Cease Total Will Have Passed That Sum

The aggregate cost of the war for all belligerents has already passed the trillion-dollar mark. Currently, war costs are increasing at the rate of about \$200,000,000 annually. The United States has accounted for about one-fourth and Great Britain for about one-tenth of the over-all total. Data for other countries are less accurate. But one estimate for Russia is about \$100,000,000, while the Axis Powers are estimated to have spent about \$300,000,000. The balance is accounted for by China. To these direct costs must be added billions of dollars of indirect costs represented by property destruction, scorched earth, broken careers and broken lives. It is difficult to estimate such indirect costs, but in the First World War they were equivalent to about three-fourths of the direct costs incurred. It is clear, therefore, that the total costs of this war will be substantially in excess of the trillion-dollar mark before hostilities cease and reconstruction is completed.—New York Times.

## Synthetic Tires

Withstand Speedway Test Under The Most Gruelling Speeds

In a statement issued by W. H. Funston, President of the Firestone Tire & Rubber Company of Canada, Limited, synthetic tires made by his company have successfully completed a most gruelling speed test made to ascertain just how such tires stand up under high speeds.

The test was authorized by the U. S. Government and conducted by the American Automobile Association. Local was the Indianapolis Speedway, scene of the pre-war automobile classics. Wilbur Shaw, famous three-time winner of the Indianapolis Race, volunteered to make the test. Driving a racing car equipped with regular tires taken from stock Shaw drove 500 miles at an average speed of 100 miles per hour, taking the turns at 90 miles and stepping up to more than 135 miles an hour on the straightaways without a single skid or blowout. Tire engineers say it is equal to 50,000 miles of ordinary driving.

"This proves conclusively," Mr. Funston points out, "that synthetic tires are safe at high speeds. The test was authorized by the U. S. Government to find out what might be the result of synthetic tire performance when the war-time speed limits are lifted. The results speak for themselves. However, if car owners hope to keep their cars in service it is vitally necessary that they continue to observe wartime speed limits and all the other simple, yet fundamental, precautions which have led to so successful keeping Canada's irreplaceable cars in service," declares Mr. Funston, "for it looks like a long time yet before the average car owner will be able to get new tires."

### SELECTED

## RECIPES

### POPULAR COOKIES

The heyday of the cookie is still here—and always will be. No special evidence is needed to back up this statement in the minds of mothers of school age youngsters!

Little hands (and bigger ones too!) are as much inclined to invade the cookie jar as ever and recipes for easy-to-make, cookies are in great demand by modern mothers who still keep the family cookie jar brim-full.

One of the most popular breakfast cereals—oat-popped rice, is the inspiration for this delicious drop cookie.

### Peanut Butter Macaroons

2 egg whites  
2 cup sugar  
1 teaspoon almond extract  
1/2 cup peanut butter  
2 cups oven popped rice cereal  
Beat egg whites until stiff but not dry. Fold in sugar, flavoring and peanut butter. Add oven popped rice cereal, stirring only enough to combine. Drop from teaspoon onto well greased baking sheet; bake in moderate oven (375 deg. F.) for about 20 minutes.  
Yield: 1 1/2 dozen macaroons (2 1/2 inches in diameter).

## Lost Its Secrecy

Germans Published The Original Formula Used For Making Cologne

So famous did Cologne become for one of its products that it won a place in the dictionary as cologne, short for the perfume eau de cologne.

Actually, the scent was first devised in Italy, but its manufacture was established in Cologne in 1709 by Giovanni Maria Farina. He passed the secret on to his nephew, who handed it down to his grandson, whose descendants still make it.

Later the formula lost its secrecy when Germans published it. The original cologne was made by dissolving oil of lavender and oil of rosemary in distilled alcohol, then adding oils of neroli (from orange flowers), of lemon, of sweet orange peel, of limes and of bergamot (a pear-shaped species of orange), with a tincture of rose-geranium flowers to top everything off.—New York Herald Tribune.

## Simple To Make

By ANNE ADAMS

Few pattern pieces to Pattern 4799. Just straight seams to sew back and front! No sleeves to set in! It all adds up to easy sewing. A cool dress, slim and flattering.

Pattern 4799: Women's sizes 32, 34, 36, 38, 40, 44, 46, 48, 50, 52. Size 36, 3 yds. 35-in. 1/2 yd. trim. Send twenty cents (20) in coins (stamps cannot be accepted) for this pattern. Write, please, for Name, Address and Style Number and send orders to the Anne Adams Pattern Dept., Winnipeg Newspaper Union, 173 McDermott Ave. S., Winnipeg, Man. "Because of the alowness of the mails delivery of our patterns may take a few days longer than usual."

## Giant New Ship

British Are Building One For Land-Ing Purposes In Japan

A giant new type of landing ship for use against the Japanese now is being built in British shipyards, the British information services reported last night.

(The B.I.S. said the new landing craft has a far larger capacity than any landing ship built to date and its range is also considerably greater).

All gun crews of the British navy are now equipped with gas masks, which are expected to enable gunners to remain at their stations in the face of a gas attack.

THROAT SORE?

## COMMERCIAL AIRCRAFT

Second commercial aircraft to be developed from the Lancaster bomber, the Tudor I will be introduced during the coming summer. Officials of A. V. Roe and Company, Ltd., aeronautical engineers, described it as a fast trans-Atlantic plane. Nearly ready for service is Tudor II, which, carrying 68 passengers, is much larger but has not the long range of the Tudor I.

Japanese pilots were given little personal protection, such as armor plate or bullet-proof fuel tanks, in the early stages of the war. 2614

## LOCALS

Born to Mr. and Mrs. Clare Little (nee Florence Russell) at Toronto, Ont., on March 15, a daughter, Mr. Arthur Knudson arrived home last week after being away at Vancouver, B.C., and other places since last summer.

Mr. and Mrs. M. McMillan have returned to their farm after being in Edmonton all winter.

Mrs. R. E. Maguire of Edmonton visited her parents, Mr. and Mrs. McMillan, this week.

Miss Mildred Hill has accepted a position in the office of the Board of Religious Education for the United Church, at Toronto, and will be leaving for her new work shortly.

A brother of Mr. M. D. Askin from southern Saskatchewan, who has spent the winter at the coast, stopped off in Irma for a week's visit.

## M. D. Wainwright Council Minutes

(continued from front page)  
law No. 113 pass its third and final reading. Cd.

Moved by Cr. Archibald that this council recommence to the department of public works the closing of road allowance between sections 21 and 28-44-8-4 as outlined by Mr. S. Pasztor. Cd.

Moved by Cr. Archibald that all monies for 1945 public works voted by the council be allocated to the divisions as per their assessed value, and any monies over or under spent in any previous year be debited or credited to the divisions in question. Cd.

Moved by Cr. Spencer that the following rates of pay for public works shall be established for 1945:

Foreman, 60c per hour; grader man, 60c per hour; laborer 50c per hour; man and two horse team, 65c per hour; man and 4 horse team, 85c per hour; man and 6 horse team 95c per hour; maintaing, 90c per completed mile; operators 50c per hour; motor grader operators \$1.00 per hour; apprentice to motor grader operators, 75c per hour; repair work, 60c per hour. (Apprentices to be moved up at the discretion of the councillor.) Cd.

Moved by Cr. Archibald that the following rates be charged while motor graders are working in any division: 201, 2.25 per hour; 302 and 303, 3.00 per hour; 311, 4.00 per hour. Cd.

Moved by Cr. Spencer that the 303 motor grader start the 1945 season's work in divisions 1 and 4, the 311 in divisions 6 and 7, and 302 in divisions 2 and 5. Cd.

Moved by Cr. Spencer that this council enter into a road contract with R. A. Kenney to do certain work in division 2 for 1945. Cd.

Moved by Cr. Spencer that the reeve be a committee with power to act with reference to the highway south to Czar, Alta., and the continuation of highway No. 14 east to the meridian line. Cd.

Moved by Cr. Archibald that all pay sheets must be properly filled out in detail on both sides before payment of same is approved. Cd.

Moved by Cr. Taylor that Cr. Sutherland be a committee with power to act to have any alterations found necessary to the municipal garage completed without delay. Cd.

Moved by Cr. Dallyn that the secretary advise Messrs. Whallen and Leder, and Arthur A. Voice that no road building contracts will be awarded until the May 10 meeting of the council. Cd.

Moved by Cr. Golding that the secretary advise J. A. Touchette that no reduction can be made with reference to penalties added on the \$1 1/2 13-44-5-4 and that if they wish to redeem said land the total amount of taxes appearing on the roll is the amount to be collected. Cd.

By-law No. 107 concerning the sale of S1/2 12-43-1-4 to W. A. Scott for \$1200 was presented.

Moved by Cr. Smale that by-law No. 107 pass its first reading. Cd.

Moved by Cr. Archibald that by-law No. 107 pass its second reading. Cd.

Moved by Cr. Golding that by-law No. 107 pass its third and final reading. Cd.

Moved by Cr. Smale that this council lease to W. A. Scott the NE 1-43-1-4 for pasture purposes until March 1 1945. Cd.

By-law No. 108 concerning the sale of the SE 6-42-3-4 to J. F. Armstrong for \$425.00 cash presented.

Moved by Cr. Spencer that by-law No. 108 pass its first reading. Cd.

Moved by Cr. Smale that by-law

A few good young registered Hereford bulls of serviceable age. Real Gay Lad and Prince Domino breeding. Prices moderate. J. W. Bell, Irma, phone 213. One mile west and one mile due south of Crescent Hill school.

## FOR SALE

Pure bred Aberdeen Angus bull calves. Also Victory seed oats. T. C. Sanders, Irma, phone 214. 20p

## TREAT FOR WARBLER

It is time to buy that package of warble powder in order to eliminate warble flies. Mix the powder according to directions on the package and apply it as soon as the warbles appear. You may need to treat two or even three times to get the succession of grubs as they appear, but you will be pleased with the results. A pound of warble fly powder will treat from 50 to 75 head of cattle. One treatment will give about 75 percent control but application must be made at the proper time, that is, just before the grubs begin to drop to the ground.

## GENERAL ELECTION IS CALLED FOR JUNE 11

Prime Minister King announced on Friday that the federal general election will be held on June 11.

This was the same date as the Ontario provincial election which has been set ahead to June 4th so as not to conflict with the federal contest.

In Camrose riding there are four candidates already nominated.

The Liberal party candidate is Paul Furnalls, of Halkirk; Progressive Conservative, R. Bowes, of Camrose; Social Credit, J. A. Marshall, of Bashaw, C.C.F., Sqn. Leader, C. A. Ronning, of Ottawa.

W. L. Knaut, of Camrose, is the returning officer for Camrose federal riding.

## HARBORED A DESERTER

William Brown, of Tulibay Lake Lake district, pleaded guilty to a charge of "harboring a deserter" when he appeared in RCMP court at Lloydminster, Alta., recently. Brown was sentenced to 13 months in Fort Saskatchewan jail for the offence.

"Our physical fitness program has three objectives, to survive, to resist evil, and to condition ourselves to sacrifice." — Dr. J. J. G. Athanas.
